The circular of Rouher to the Electors affirms that he is a defender of the principles of free trade. In relation to the future form of government he says the nation will soon decide upon it after the elections have been held and the question of free trade has been decided upon. He denounced the opponents of this policy as mere factions.

THE FRENCH ARMY.

We shall also called for two milliards of money and three years' installments. The nation evidently desires it."

EDUCATION.

The speech of Gambetta at Bordeaux was upon the subject of the development of education in France, and was received with hearty approval and great applause.

THIERS.

PARIS, June 29.—The dinner given by Thiers after the review yesterday was a brilliant affair, and was attended by nearly all the Generals of the army in and about Paris, and by members of the ministry and many prominent Deputies of the National Assembly. The utmost cordiality of feeling prevailed.

ST. JOHNS, N. They are very reticent as to the result of their mission, but the fishermen and sub-traders of the Island and of Nova Scotia are favorable to the Treaty, and they estimate that, while it is probable that the Nova Scotia Government is playing with the Ottawa Government, it is not to be relied upon to oppose the Treaty. NEW YORK, June 30, 1871.

THE PLEASONTON—BOUTWELL TROUBLE.

The *Tribune's* Washington correspondent telegraphs that there is a rumor current that the President has informed both Boutwell and Pleasonton that he will not interfere between them but that they must settle their difficulty between themselves. Another report is to the effect that the whole matter has been referred to the Attorney General, and that his decision is to be final. On the other hand, prominent officials who have the means of knowing, say the difference between the Secretary and Commissioner is now so great that reconciliation is impossible between them, but that the matter will be allowed to remain *in statu quo* for the present, the Secretary taking the high position that he has no personal grounds of complaint so long as the Commissioner does not disobey his order, and holding that General Pleasonton as his subordinate had a perfect right to annul the paper contract since he did not approve of it, if the Commissioner does not attempt any further assumption of independent power the President will not be very likely to demand Pleasonton's immediate resignation. At any rate the Pre ident and Secretary Boutwell left town in the evening, one for Long Branch, and the other for a ten day's visit to his home in Massachusetts.

THE ERIE CASE.

Mr. Evarts resumed his argument in the Erie case to-day. He contended that the case presented was one of substantial abstraction by Jay Gould of 30,000 shares of the stock in question, or at least such dealing with it by him as had completely extracted from it its marketable or saleable quality, and by means of false pretenses made by him to the Farmers Loan and Trust Company and misuse of the original certificate by Longing to the receivership transferred that marketable and saleable quality from the genuine stock of Heath and Raphael to his own spurious and until then valueless and wholly unmarketable stock. When Evarts concluded, time was given by the Court to allow the opposing counsel to file their briefs. It was announced in Court at the conclusion of Evarts' argument that the Board of Brokers had received notice from the Erie Railway Company that the new issue of 30,000 shares of stock did not include the new issue of thirty days. Their issue, if made, it is stated will be by virtue of an injunction issued by the United States Circuit Court restraining the Erie Company from issuing any more stock. The pending proceeding in equity in the United States Circuit Court, which proceedings, it is believed, cannot be closed within thirty days.

A MYSTERY SOLVED.

The *Tribune* to-morrow will have the following: The mystery in regard to General Lawrence, who suddenly disappeared some weeks ago leaving a considerable difficit in his accounts as pension agent, has been solved by the reception of letters from him stating that he is now in Texas. He has made full explanations to his friends, who, while they lament his rash decision in previously withholding from them a statement of his affairs are not far from abandoning him. The imputation that he had taken with him his ill-advised flight, a woman who was not his wife, is removed by new developments. As has heretofore been stated he had been led to attempt sundry speculations in stocks using government money. Being unsuccessful he misapplied more and more in the same manner until the deficiency in his accounts had become so great as to offer no choice but to call upon his friends at once for aid, or take the flight. The pension bureau has not yet completed the examination of his accounts but the amount of deficit will, it is believed, vary little from the amount previously stated, about $47,000. This amount his friends stand ready to pay before he can be officially declared a defaulter. They feel that he will then be restored to his family and resume his former pursuits with the least possible stain from this unfortunate occurrence.

EPISCOPAL EXCITEMENT.

A most exciting secret meeting of the Episcopal General Theological Seminary was held this evening. Various charges against Dr. Forbes, who returned to the Episcopal Church from Romish faith, on the subject was brought before the meeting and it was voted to lay the motion on the table, whereupon Dr. Forbes, in a great state of excitement, tendered his resignation, and at once left the room. A scene of confusion and excitement followed. Ex-Judge Bell, one of the Trustees, obtained the floor, and while speaking with great earnestness was struck by a fit, fell dead with disease of the heart. This sad affair brought the meeting to an abrupt close. Judge Bell occupied a seat on the bench of this city about thirty years ago, and was in the seventieth year of his age at the time of his death. He was very prominent in all matters affecting the Episcopal Church.

THE GRAND DUKE ALEXIS.

A cable dispatch from St. Petersburg states that a notice appeared yesterday in the official column of the *Journal de St. Petersburg* stating that when the Grand Duke Alexis has returned from Kiss, where he remains at present with the Emperor, he will at once proceed to Cronstadt to superintend the preparations being made at the Imperial Navy Yard for his voyage to America. The Grand Duke has stated that he intends to carry to America one of the most perfect naval squadrons that ever left the European waters. In St. Petersburg the Grand Duke's voyage is the principal topic at the united service clubs, and those who have influence at Court are exerting it to the utmost to secure assignment to his Highness' suite. Prince Gortschakoff states that the Grand Duke will reach the city at Cronstadt the last of August for America.

THE FOSTER CASE.

Ex-Judge Stuart, the associate counsel with Mr. Hackett in the Foster case, who will pray this morning to Judge Ingraham in the Supreme Court for a stay of proceedings, has prepared a very extensive bill of exceptions, which has been printed. The exception taken to Judge Cardoza's refusal to allow Mr. Hackett to testify on behalf of her husband was the main point on which he relies. Mr. Stuart insists that, while the decision to the main question of the validity of Heath and Raphael to his own spurious and until then valueless and wholly unmarketable stock. When Evarts concluded, time was given by the Court to allow the opposing counsel to file their briefs. It was announced in Court at the conclusion of Evarts' argument that the Board of Brokers had received notice from the Erie Railway Company that the new issue of 30,000 shares of stock did not include the new issue of thirty days. Their issue, if made, it is stated will be by virtue of an injunction issued by the United States Circuit Court restraining the Erie Company from issuing any more stock. The pending proceeding in equity in the United States Circuit Court, which proceedings, it is believed, cannot be closed within thirty days.

THE WEATHER.

The barometer has remained stationary on the Pacific Coast and has fallen heavily from Wyoming Territory to Minnesota. It generally has risen along the Atlantic coast, but is decidedly on fall in the Eastern States and lower lakes. The temperature has risen in the northwest so far as heard from and has fallen on the Atlantic and Gulf coast. Northwesterly winds are reported from Virginia to Georgia and fresh southeast and southwest winds on Lake Michigan and Iowa. The rain of Tuesday evening in Northern Florida, after clearing away, is again reconnoitering from Jacksonville to Carolina to Alabama, with cloudy weather as far as Maryland. Clear weather continues in the Eastern States. The storm which was apprehended from the northwest is now fully indicated by reports from the signal observing stations. No reports have been received from northwest of Milwaukee nor from Duluth.

Probabilities—Brisk winds with rains are probable for to-night and Saturday on Lake Superior. Falling barometer with local rains from Ohio to North Carolina. Cloudy weather with easterly winds are probable for Saturday for the Middle States. Clear weather preceding weather will probably continue from the South Atlantic to Ohio and Mississippi.

KU-KLUX.

Col. F. T. Sayre, of Alabama, was examined by the ku-klux committee to-day. He denied the statement heretofore made by a negro witness that at the time Governor-elect Lindsay was in Montgomery, whither he went to the inauguration, he met Democratic Congressmen and other armed men for the purpose of intimidating Governor Smith, who refused to yield the executive office, or any of his friends. He had traveled in his business of lawyer over portions of the State and found everything quiet and peaceable.

At the fifty-fourth annual commencement at Georgetown College yesterday, General Sherman, in the course of a short address, said the attempt to divide the Union in our generation failed and it would always fail and he would as soon expect to see an attempt to dissolve this Union in future come from the North as from the South, but it will never come, for now we are joined together strong-er than by bands of steel.

PLEASONTON AND BOUTWELL.

It is stated that when yesterday Com. Pleasonton represented to the President the differences between Secretary Boutwell and himself, and stated his own view of the law and practice in connection with the administration of officers of the Internal Revenue Bureau, the President said rather than directly interpose in the matter he preferred that these gentlemen being his personal friends, should come together and adjust their differences. He also advised Commissioner Pleasonton as the subordinate officer to call upon Secretary Boutwell with that intention. Pleasonton did so, and had with the Secretary a long interview. The Secretary stated during the conversation that the country held him responsible for all monies disbursed by the Treasury Department, therefore every contract for payment of money should be made under his direction and with his approval, and that his official responsibility, credit and character of the department should be under his supervision. In order to collect revenue it was proper that the power and authority should be in the hands of the secretary in view of his responsibility. Commissioner Pleasonton said he knew his own duties and responsibilities under the law and powers pertaining to his office, denying the right of the secretary to hear appeals from or the decision as under the law the remedy lay in the courts.

CHICAGO.

Murder of a Desperado.

CHICAGO, June 30.—A prize fighter and desperado named Loony, who had long been a terror to the people of Central City, Erie, and other mining districts in Colorado, was shot dead at Erie, on Sunday last by some unknown person. Loony and a comrade named Jim Geary, on the day previous, had brutally beaten and maltreated Rev. Mr. Van Valkenbergh and another citizen on Saturday. Loony entered a saloon with a huge knife and a revolver, and commenced violent demonstrations against two other persons present. While thus engaged a rifle ball came whizzing through the open door, entered his side, and he dropped to the floor dead. The man who fired the shot is not known, but it is supposed he was one of the Vigilance Committee raised at Boulder to rid the country of the ruffian. There is general rejoicing over his taking off.

ROVING INDIANS.

The St. Paul *Press* of yesterday says a citizen of Stearns county, Minnesota, has arrived in that city for the purpose of seeking assistance from the Minnesota State authorities in keeping certain bands of roving Chipewa Indians upon their reservations. Settlers in the northern portion of Stearns county have been seriously troubled by them, and thefts have been frequently committed. Governor Austin being absent, no relief has been sent, but there probably will be, when he returns, steps taken to remove the Indians from the settlement.

MACE AND ALLEN.

Tom Allen received a telegram from Jem Mace saying Ned O'Baldwin had challenged Mace and asking Allen to stand in the stakes. Allen replied he would, whereupon Mace accepted O'Baldwin's challenge offering to fight him for any amount from $2,000 to $10,000. Mace is willing to give O'Baldwin his own time but prefers the fight should take place near New Orleans. Mace will probably train at the Washington House, four miles from St. Louis. Tom Kelly is mentioned as O'Baldwin's trainer. Allen will put up $2,000 on Mace.

RAILROAD SUIT.

Legal proceedings between the Ohio & Mississippi and Jeffersonville and Indianapolis Railroads in regard to the right of way across the lands of the latter road at the Indiana end of the railroad bridge across the Ohio river at this point, have been suspended for a week, pending negotiations which it is believed will result in an amicable adjustment by which the Ohio & Mississippi Railroad will get the right of way, and its trains be enabled to cross the bridge and receive and deposit passengers in Louisville.

The court house is crowded to the utmost capacity. The evidence in behalf of the Government has been closed to-day, and the case in behalf of the Government has opened. It promises to give developments much later interesting regarding Ku Kluxism in general and Dr. Benfany, Alexander Pace in particular. Dr. Benfany of North near Aberdeen. KU-KLUX.

Col. F. T. Sayre, of Alabama, was examined by the ku-klux committee to-day. He denied the statement heretofore made by a negro witness that at the time Governor-elect Lindsay was in Montgomery, whither he went to the inauguration, he met Democratic Congressmen and other armed men for the purpose of intimidating Governor Smith, who refused to yield the executive office, or any of his friends. He had traveled in his business of lawyer over portions of the State and found everything quiet and peaceable.

COMMENCEMENT.

At the fifty-fourth annual commencement at Georgetown College yesterday, General Sherman, in the course of a short address, said the attempt to divide the Union in our generation failed and it would always fail and he would as soon expect to see an attempt to dissolve this Union in future come from the North as from the South, but it will never come, for now we are joined together stronger than by bands of steel.

OUR PUBLIC SCHOOLS.

The Summer Vacation—Closing Exercises Yesterday.

Our public schools closed yesterday for the summer vacation, and the exercises on the occasion were of a highly entertaining character.

At the Fifth ward, Allegheny, schools the examinations and other exercises took place in the presence of a large number of citizens, all of whom were greatly pleased at the creditable manner in which the pupils acquitted themselves.

In the Sixth ward (Forbes district) a very pleasant time was had in the musical line, under the direction of Prof. W. B. Slack. Mr. Slack has labored earnestly, and we can truly say with great success, in his district during the past season, and the pupils in the schools named, especially, have made most commendable progress under the Professors' instructions. Music day in the Forbes schools (Tuesday of each week) have always been looked forward to with pleasant anticipations and the coming of Prof. Slack there has been greeted with joy. He is not only an excellent music teacher, but stands high in the regard of his scholars, and all with whom he comes in contact.

There were classes of several rooms engaged

AWAY down in Maine the Democracy have fallen into the new departure business but while swallowing the amendments they denounce the manner of their passage and ratification.

A GOOD QUALITY of lubricating oil has been struck at Erie, Pennsylvania. There appears to be no limit to the production of this very useful article in our State, and we doubt not future discoveries will completely eclipse anything the past has demonstrated.

THIS has been commencement week at the various places of education throughout the country. From all sections come the pleasing accounts of the exercises and it is a matter of congratulation that all our colleges and educational institutions are in such flourishing condition.

W. T. HAINES, ESQ., of this city, has been appointed Commissioner of Customs by the President. This was a worthy acknowledgment of the political services of an able and honest gentleman, and the appointment cannot fail to afford much satisfaction to all Republicans in this section.

THE MOBILE POSTMASTER, against whom the grand jury found a true bill lately, for bribery, has been triumphantly acquitted, after a fair trial, the jury rendering their verdict without leaving their seats. Will our democratic co-temporaries, who were so prompt to herald the charge, now have the fairness to record the verdict.

THE opposition papers must imagine that they do President Grant an immense damage when they style him the presentaking head of the Government. We admit the President has accepted many valuable gifts from admiring friends, but there is a still greater one in store for him in 1872—the presentation of his credentials for another term of office from the people of the United States.

THE PEACH GROWERS ASSOCIATION of Delaware, have announced the gratifying fact, that the peach crop of that State this year will probably reach the enormous quantity of 3,315,000 baskets, or double the crop of last year. The yield in New Jersey promises full as well, while the crop nearer home is better than an average one. The Delaware and Jersey peaches are already beginning to come into our market, and their quantity will make them cheap

THE Philadelphia *Age*, glorifying the recently nominated Democratic candidate for Mayor of that city, makes a great point of his having offered his services to the Secretary of the Navy in 1861, and of his afterwards having served in the Grey Reserves. So it seems the world does move. Once that very *Age* was the organ of the bitterest enemies of the northern soldiers. Now, in the persons of General McCook of Ohio and Lieutenant Biddle of Philadelphia, they have chosen late members of the home guard to be their candidates. Before we are older by another lustre, they may be shouting in honor of some real Simon pure soldier. But he will probably have fought on the Southern side.

IN ENGLAND it used to be only necessary to mention France and invasion and the whole country would become alarmed and a very lively commotion be created. In New York if any one wishes to arouse the Gothamitish ire and to invoke the Manhattanish wrath, he has merely to mention the Pennsylvania Central Railroad in laudatory terms. They do not like the great corporation in New York, but they are most ludicrously afraid of it. For a long time the two great Trunk lines through that State have owned it, and the Tammany ring has owned the city, and the railroads and Tammany have sometimes fought and sometimes glutted themselves at their ghoulish orgies in common: fighting with each other now and then, caring for nobody else, and expecting that thus would things go on for ever. Is it any wonder then that they howl and swear and hurl imprecations about them as thick as raisins in a fruit cake, when they see that a great and apparently irresistible hand is reaching out in their direction, and that its shadow is already upon them? It appears to be just a little surprising, however, that the other New Yorkers, outside of the rings, should join in the torrent of abuse which is now being poured upon the Pennsylvania Rail road Company in hopes of quenching the fires of its ambition. But, with other slaves, they probably dread a change of masters. Not able to imagine anything worse than their present condition, but, fearing that there may be, they obey the commands of the present and revile the not impossible future.

SILVER.

Our esteemed citizen, Mr. Robert J. Anderson, of the firm of Anderson & Woods, proprietors of the Pittsburgh Steel Works, who has just returned from an extended tour of observation through the silver mines of Utah, bringing with him some fine specimens of ores, is about organizing a company here, for the purpose of erecting at Pittsburgh extensive smelting works. There is no reason why we should not take at once the utmost position, in this hitherto (to us) new branch of industry. We have only to [illegible] is requisite, capital, fuel, and labor for smelting all of the [illegible] to be mined during the next [illegible] we do not promptly take [illegible] surprise it will be our own [illegible] son has had numerous [illegible] ores taken from the [illegible] supervision, smelted [illegible] analyzed and coined [illegible] Mint at Philadelphia, and is prepared to demonstrate to all who call upon him, that Pittsburgh capital, skill and energy will secure for us one of the most lucrative, and useful industries that the world has yet developed. The character of Mr. A. is so well known in this community, for probity, energy and practical sagacity, that it is unnecessary for us to say one word in his behalf. He is not the man to be led away by any fictitious story, nor has he depended upon the representations of any one. He has been to the mines, and seen the traces of their hidden wealth, and is so well convinced that the enterprise of mining and smelting ores will prove remunerative, that he intends embarking in it at once. We hope his example will be imitated by others of our capitalists, so that ere long we will be able to claim the smelting of precious metals, as one of our leading and successful industries. Mr. Anderson has placed two solid silver bricks, in the window of Messrs. J. B. McFadden & Co., jewellers, on Market street, where the public can see them.

FRENCH ELECTIONS.

Elections will take place to-morrow in one hundred and thirteen districts in France. These elections are looked forward to with intense interest. The last accounts were that they would result in favor of the Provisional Government. But this is mere conjecture; there is no absolute certainty that they will. The conduct of the troops during the review on Thursday would seem to indicate that Thiers is becoming more popular, or that Imperialism is quietly biding its time. The refusal of M. Persigny to accept of the candidature in the Department of the Loire is to be received as an indication that he believes he can best subserve the interests of the Empire by occupying a less distinguished position than that of a seat in the Assembly. At all events, the result of the elections will determine whether the people are in favor of the present so-called Republic, or some other form of government. The different parties are working with energy and determination, although, so far as we know, with less commotion than is usual on an occasion involving questions of such moment.

In the meantime, there seems to be a fusion among the Princes, although, if the real state of the case were known, there may be considerable confusion among them. The Orleans Princes were, at last accounts, about to proceed to the residence of the Comte de Chambord, in Austria, who is the only living representative of the old Bourbon line that has a claim to the throne of France, and "await the decision of the country in silence." This cordial greeting between the Princes would indicate a determination on their part to crush out Bonapartism. The policy of the Orleanists, as stated a few days ago, is, if they should have a majority in the Assembly, to move for a Constitution and offer the throne to the Count de Chambord, and in the event of his refusal, to give to the Count de Paris. This is rather a shrewd piece of policy on the part of the Orleanists. Monsieur Henri is upwards of fifty years of age, and his wife has seen about the same number of summers as he, and as they are without issue, the old Bourbon line would terminate at his death. By this plan the Orleanists would unite the friends of both branches of the family, and, in all probability secure the throne for themselves on the death of the Comte de Chambord. The Italian descendants of Philip of Anjou, King of Spain, belong to the older branch of the Bourbon line, but when he ascended the Spanish throne it was expressly understood that he renounced his own right and the right of his descendants to rule over France, so that at the death of Henry, the Count of Paris would become the legitimate heir of the French throne. These considerations have no doubt induced the Prince De Joinville and the Duc D'Aumale to give in their adherence to the manifesto of Henry of Frohsdorf, and attracted them to his humble but pretentious Court in Austria, to lay at his feet the weapons of domestic hostility.

We are of the opinion, however, that there is still a strong Bonapartist feeling in France, and although the friends of the exile of Chiselhurst may not be able to accomplish what they desire at present, they will persevere in their efforts and leave nothing undone to secure his restoration to power. The strength of this feeling may have its index in the fusion of the Princes. There is evidently some powerful motive which draws into such cordial re-union two branches of a family, whose interests have been in conflict for more than forty years.

Thiers, evidently, has not the fullest confidence in the stability of his government, nor in the devotion of the people to it. His opposition did not exclude the Orleans princes from seats in the Assembly. He watches the movements of the princes with anxiety, and does every thing in his power to neutralize their influence.

The elections to-morrow will decide whether the people are in favor of continuing the Republic as at present constituted, or some other form of government, and the princes will, when they hear the result, no doubt break their silence.

RELIGIOUS INTELLIGENCE.

Much interest exists in Methodist circles, and, in fact, to some extent in all denominations, in the results of the late investigation of certain charges preferred against Rev. Dr. Lanahan, one of the Agents of the Methodist Book Concern at New York. The trial took place before the Book Committee, the authorized ecclesiastical authority of the General Conference. While the daily telegrams have furnished a synopsis of the proceedings, there is some obscurity in certain important points brought out in the trial, which might interest many; but we simply state the final action. The charges were: 1. Disregard and contempt of the authority of the Book Committee and of the Agent of the Book Concern. 2. Causing to be copied large portions of books of accounts of the Concern, and carrying the said copies away from the establishment. 3. Causing extracts from said copies and pretended results of examination thereof by accountants to be printed secretly, without the knowledge of the Agent, or conference with him. 4. He has threatened further legal proceedings if his demands are not complied with. The Committee, after the examination of witnesses and arguments from counsel on both sides, discussed the matter for a considerable time, and finally acted. The first charge was sustained unanimously; the second and third charges by eleven to four. The act of removal of Dr. Lanahan was carried by the same vote, and then the question was referred to the Bishops present, who act as a concurrent body, according to the Discipline. The action of the Committee was wholly on the ground of the charges against Dr. Lanahan, and without reference to alleged frauds in the Book Concern. When the question was referred to the Bishops, after much hesitancy Bishop James voted to concur with the Committee action. As Bishop Scott was not present at the taking of most of the testimony, he did not vote. Bishop Ames thought Dr. Lanahan had not been permitted to exercise an unrestricted right to examine all books and accounts of the Concern, and he could not think of visiting so severe a penalty as that of removal from office upon the Assistant Agent for applying to the courts for what he might secure this right. Dr. Ames refused to accept his resignation. We understand this vote action of Bishop Ames leaves Dr. Lanahan in his position in the Book Concern. It is said the Book Committee intend now to investigate the charges of fraud made by Dr. Lanahan. The finality of this vexed question is, we presume, will not be reached until the session of the General Conference in Brooklyn, N. Y., next May.

The grand consummation of the Presbyterian Memorial fund, amounting to over seven million six hundred thousand dollars, is generally known; but the classification of the moneys are not. The gifts were for the following objects: New church buildings, $2,256,475; manses, $683,884; repairs and enlargements $735,707; payment of debts, $1,083,448; institutions of learning, $1,405,548; permanent institutions in foreign lands, $73,508; special gifts to the boards, $60,340, hospitals, $48,655; relief fund and sustentation, $41,150; Presbyterian houses, $46,882; expenses of Committee, $11,175; amount not specified, $162,681: total, $7,617,499. Besides these special gifts, the contributions to the charities of the Church were greatly increased during the same time.

The organ question is a source of much disquiet in some of the churches yet, notwithstanding some of the belligerent opposition has ceased. The question came up recently in the Presbyterian Assembly at Quebec, on the petition of a congregation to be allowed to use a musical instrument in public worship. After a thorough ventilation of old arguments, the Assembly finally voted, sixty-two to thirty-one, to permit each congregation to decide the matter for itself.

Notwithstanding President Garrett, the distinguished head of the Baltimore and Ohio Railroad, in his late speech, said some things that everybody don't endorse, his generous gift of ten thousand dollars towards the erection of a new building for the Young Men's Christian Association in Baltimore, is a challenge to both friend and foe to do likewise for the community in which they reside. Who will imitate his example in this city?

The *Independent* supposes that as New York and Philadelphia have established Presbyterian Hospitals, that there hospitals are intended exclusively for the treatment of Presbyterian diseases—that none but Presbyterian doctors will be employed and none but Presbyterian medicines given. The only religious service will be blue mass. The Episcopalians and Catholics long since established the precedent, and we suppose the next step of the Methodists will be in that direction, after they have got through the grand project of providing Houses for aged and infirm Methodists in the large cities, unless some large-hearted giver, like Hon. James Lennox, should build a hospital for them.

The camp-meeting season in this region is nigh at hand. The Pittsburgh *Advocate* announces fifteen to be held between now and the first of September. In this immediate neighborhood, camp-meetings are to be held as follows: Leetsdale, near Sewickley, August 8; Tarentum, August 16; Phillipsburg, August 17, and West Newton, the same date.

Rev. Dr. Williams of Baltimore, in a speech at the late Chicago Baptist Convention, said that in his actual practice he was fast approaching infant baptism. We quote his words: "He has carried into the baptistry children so young that their feet could not touch the baptistry floor. Out of his own Sunday school he has baptized two hundred and twenty-eight, of these the Church has found occasion to discipline only seventeen. Out of one Bible-class there he has baptized fifty-one."

Zion's Herald, of Boston, congratulates the Roman Catholics for their laudable efforts in organizing temperance societies. It thinks that if they can ouce be brought to Prohibition the victory is won.

According to the official statistics of the United Presbyterian Church of the United States for the year 1871, there are the following: Synods, 8; Presbyteries, 56; ministers, 763; congregations, 735; members, 71,744; Sunday-schools, 601; Sunday-school teachers, 5,873; Sunday school pupils, 45,781, contributions, $802,580. In order to show the results of two years, we give the statistics of 1870, as follows: Synods 8; Presbyteries, 59; ministers, 551; congregations, 727; members, 69,556; Sunday schools, 575; Sunday-school teachers, 6,671; Sunday-school pupils, 42,907; contributions, $819,364.

POLITICAL.

SHAKSPEARE on the Democratic New Departure—"Assume a virtue, if you have it not."

THE present Governor of Maryland publishes a card in the *The Baltimore Gazette* stating that he is not a candidate for re-election

THE Third party temperance men of Maine talk very strongly in favor of holding a State Convention to discuss the question of nominating a temperance candidate for Governor.

THE Carbondale (Ill.) *New Era* is advocating the claims of General John A. Logan for the Presidency. "To-day" says the *New Era*, "he is heralded as the people's favorite in the coming struggle."

WADE HAMPTON, General Forrest, Jacob Thompson and other prominent Confederates are respectfully invited by the Lynchburg *Virginian* to keep away from the Democratic National Convention "for obvious reasons." It wants only "discrete citizens" to go.

THE Hon. A. H. Stephens, says: "If any Democrat has changed his opinion, and come to the conclusion that the Radical policy was right, then it is not dishonorable for him to say so; but, when he does it, the only honorable course for him to pursue afterwards is to go and join that party."

A DEMOCRATIC paper has discovered a most astounding outrage. It gravely informs its readers that a Canadian dealer has invaded Gloucester, Mass., and sold halibut *two and three hundred per cent., cheaper* than the Yankee dealers. Of course, the Yankees, smart as they are, can't compete with a dealer on such terms.

THE Savanah, Ga., *Republican* now urges that the southern Democrats should not at present talk about political matters It counsels a course of "masterly inactivity," and asks, "Why quarrel with the Northern Democracy about abstract theories and party platforms? The latter may not suit the South, but a Democratic administration will, and that is what we are after.

OF Caleb Cushing the Washington *Capital* has this to say: He is one of the most wonderful men of the day. Without office and without official recognition of any sort, he is yet a power. We hazard nothing in saying that for the last three years of our Washington observation no State paper has been written, of any importance, or move made, or diplomatic agent selected, without calling in aid the pen or advice, of this remarkable man.

THE New York *Sun* says the following: "Why do not the disconten[illegible] Republicans and progressive Democrats combine together and form a new party? They have an excellent candidate for the Presidency in the person of Horace Greeley. All the farmers and all the mechanics are for him already, because he is the Farmers' and Mechanics' candidate; and, if the discontented Republicans and progressive Democrats would also combine to support him, he would be sure of a bigger majority than was ever received by any former President.

THE *National Republican*, a Grant organ, says of Cameron and the Vice-Presidency: "Mr. Cameron is a rare and sturdy old gentleman, a superb politician and a statesman of acknowledged ability. He is extremely popular with the people, possesses not only a national but almost a world-wide reputation, and would, we have no doubt, poll an unanimous vote in his party. It is a little early in the day to talk about the Vice-Presidency, however. Mr. Colfax is still in the field, for we believe he has reconsidered the determination he made some time ago, of retiring forever to the quiet abodes of Indiana home life. Mr. Cameron has one thing in his favor. If he can only fix up his little trouble with Mr. Curtin he can certainly carry Pennsylvania. His election would make a vacancy in the Senate, but they have splendid senatorial material in Pennsylvania.

THE *Dubuque Herald* has published the following letter from the Rev. J. P. Newman, pastor of the Metropolitan Methodist Church of Washington, D. C., addressed to the leading Methodist clergymen of Iowa, in behalf of the re-election of Senator Harlan. It is said that the letter has created some excitement in the Hawkeye State:

[Confidential.]

WASHINGTON, D. C., April 25, 1871.

DEAR BROTHER: As a mutual friend, I drop you a few earnest words in behalf of Senator Harlan's re-election to the United States Senate. You know the importance of early and earnest action. The members elected to the next Legislature elect the next Senator. It is, therefore, necessary that the right men be nominated, and hence attention must be given to the primary meetings.

I am glad to say to you that Senator Harlan is regular in his attendance on church, and his influence is in the right direction. I know personally that he stands high with the Administration, and has influence with the President, and is held in high esteem by his fellow-Senators. His speech on Santo Domingo has given him an elevation few Senators enjoy. Hoping that you will in all suitable ways interest yourself for Mr. Harlan, I am truly yours, J. P. NEWMAN.

ON Monday of last week, a farmer's son in Cedar county, Iowa, who is something of a naturalist, transfixed a very large and strange looking yellow garden spider, and bore it in triumph to his little sister. Four days after he went to other parts within; lifting its legs and him. His hand beg fingers, when it bit mediately, and it is [illegible] swelling almost im lose his arm. The spider [illegible] red he will with a pin through its body.

A Kentucky Naval Officer Killed In China.

It will be seen by reference to our dispatches of this morning, that in the encounter between our naval forces, on the coast of Asia, and the Coreans, Lieutenant Hugh McGee was among the killed. Lieutenant McGee was very well known in this city—his mother, and many relatives, we believe, residing here. It will, at least to them, be one consolation, in this sad affliction, to know that Lieutenant McGee received the public indorsement of his commander as a brave and gallant officer, and died with his face to the foe. Lieutenant McGee was a gentleman of very great promise, and his death is more than a loss to his relatives and friends—it will prove such to the profession of his adoption, and to the country, in defending whose honor he fell.—*Louisville Courier-Journal.*

HARDNESS OF HEARING.

We repeat what we have often said before in these columns that there are numberless persons who are sadly afflicted with slight difficulty of hearing, for which they have been taught to believe that there is no cure. The late investigations in the anatomy and structure of the ear, and the improvement of medicine in regard to the treatment thereof, have made these ailments as easy of removal as any other human infirmity. Dr. Keyser, who has an office in the rear of his Great Medicine Store, **167** Liberty street, has had uniform success in the treatment of all such cases, besides a vast variety of chronic diseases of a scrofulous character, embracing those of the skin and integumentary system: together with Fistula and Piles. Our citizens need not run off to distant localities when persons of such ability as Dr. K. possesses may be found in our midst. We always prefer giving home talent the distinction to which it is justly entitled, if, for no other reason, that prominent one, that such can always be found at their post when wanted, and need not wander all over the country in quest of patients.

THE UNIVERSAL SAFEGUARD.

It is useless for state Legislatures to pass laws for the preservation of the public health, if the great law of self-preservation, which depends for its enforcement upon the will of the individual, is suffered to remain a dead letter.

There is scarcely an adult member of the community, of either sex, in the country, who has not seen the testimony in favor of Hostetter's Stomach Bitters, furnished over their own signatures by persons of acknowledged eminence in science, literature, art, commerce, and every department of business and professional life. These witnesses have declared in the most explicit terms that the preparation is a safeguard against epidemics, a sovereign remedy for dyspepsia, a valuable antibilious medicine, a promoter of appetite a genial and harmless stimulant, a good acclimating medicine, a strengthener of the nerves, a general invigorant, a protection against the deleterious effects of malaria and impure water, and that it imparts a degree of vigor and activity to the vital forces which is not communicated by any other of the tonics and stomachics in use. Under these circumstances the self-preservative law of nature should teach every rational person who, either by reason of inherent debility or in consequence of exposure to unwholesome influences, is in peril of losing the greatest of all temporal blessings health, the importance of using the Bitters as a defensive med cine. Dyspeptics who neglect to give it a trial are simply their own enemies. It is guaranteed to cure indigestion in all its forms, and the billious and nervous will find nothing in the whole range of officina and proprietary medicines which will afford them the same relief.

SELLERS'
Imperial Cough Syrup

Has given relief to thousands who have used it, and the proprietor is persuaded that it has the power to impart benefit that cannot be claimed for the cough mixtures in general use.

Most of the mixtures sold for coughs are composed of spirituous and inflammatory articles, which, while they give little relief, really do harm.

THE IMPERIAL COUGH SYRUP,

Contains no spirituous ingredients whatever, and may be used in all cases not requiring active medical treatment.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 30, 1871.

The local money market remains easy. The banks are doing all the acceptable paper offered, while private lenders are in some instances compelled to let balances lie idle failing to get paper of the right sort.

In local bonds and stocks the inquiry is steady for investment, but the market is apparently drained. A. V. RR. bonds have been sold, the 7s, then, 96.70 was bid for them to-day. Bank stocks are scarce, and high.

The late afternoon quotations from the New York board, exhibit a firmer feeling and more active dealing is reported.

Robinson Bros., No. 78 Fourth avenue, furnish the following comparative quotations of bonds and stocks, from their latest advices by wire:

NEW YORK, June 30, 1871.

Gold opened at 112¾ and advanced steadily to 113⅛, closing at 113⅛@113¾. In the morning 1 per cent. was paid for carrying, and in the afternoon from 1 per cent to 1-64 of 1 per cent. was paid for use. Clearances $50,000,000. The exports for to-morrow are estimated at $1,500,000.

Governments dull and strong. Five-Twenties of '62 and '68 are advanced from ¼ to ⅝.

Stocks opened, weak on sales by bears especially for the Rock Island, which was sold down on the report from the West that it had been discovered that the Rock Island company has not legal title to the lands, they have hammered it the price down to 103⅞. But it soon recovered and the whole Market bumped up in spite of effort of the bears to keep prices down a while longer. The bulls predict active and buoyant market in July as market has scarcely ever been so largely oversold, and they say prices must advance as soon as Bears attempt to cover more. The active stocks have been Lake Shore, Rock Island, Pacific Mail, Western Union, Michigan and Reading. Market closed very strong. Money a little more active at 3@4. Sterling without a decided change.

Sterling exchange 110¾.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 30, 1871.

ASHES—Common Pots, Ash, 4¾@4¾; refined do. 4¾@4¾; Pearls, 7¾@8; Pots, 7¾@7¾

BUTTER—There is no improvement in the demand and with liberal receipts, the market is dull while prices remain unchanged. We continue to quote at 12@16 for fair to good; 18 for prime, and choice at 20—but few sales above 18.

BROOM CORN—Continues dull and neglected, and there is scarcely enough doing to establish quotations.

BEANS—There is considerable inquiry for prime navy and the market is bare; this kind would sell readily at $2.60@2.75.

CANDLES—Very dull, scarcely enough doing to establish quotations.

BEESWAX—Quoted at 23@25.

CEMENT—Louisville, $2.60@3.00 per bbl; Rosendale, $4.00@4.50; Calcined Plaster, $4.25 @4.50.

CHEESE—Is in fair demand, but prices are lower; prime Goshen, 12@12¾; prime Factory, 11; Dairy 10.

COUNTRY BACON—Continues very sluggish and the warm weather makes dealers anxious to realize. Country Lard is selling at 9@10.

CORN MEAL—The demand is light and restricted mainly to small lots while prices are unchanged, 80@85 cts per bushel.

CANNED GOODS—Tomatoes scarce and in demand; standard brands sell readily at $2¼@ [illegible] $2 for 2 lb, and $3.25@3.50 for 3 lb [illegible] $5.50.

DRIED FRUITS—Is quiet and unchanged; [illegible] doing way, 23@24 [illegible] 9@10.

EGGS—Continue very low and prices are lower, 12@17—but few sales above 16. The receipts are not large, but the supply, nevertheless, seems to be in excess of the demand.

FRUITS—Green apples are coming in freely, mainly from Ohio, but there is a wide range in prices, $3.00@5.00 per bbl for common to choice. Very few are being sold above $5.00. Turkey Prunes, 10c; French 12@13c; Layer Raisins, $3.00 per box; Valencia, 12½@13 cts per lb. Oranges and Lemons, $7.00 @8.00 per box—repacked. Currants, 10 cts.

FLOUR—Is quiet and unchanged; the receipts continue liberal and the supply in this market is evidently larger than it has been for some time past, particularly of spring wheat. We continue to quote at $7.00@7.25 for good spring extras; $7.25@7.40 for choice Minnesota baker's flour, and $7.50@7.80 for good to choice red winter wheat. Rye Flour, in a small way, $6.

GRAIN—Wheat is dull, and weak notwithstanding, the receipts are light and prices have still further declined; we reduce our quotations $1.35@1.40 for red, and $1.45@1.50 for white. These are low figures as compared with nearly all of the western markets, but the mills are reported as being well supplied, and refuse to pay any more—there seems to be no inquiry for export. Corn remained quiet and unchanged—60@61 buying and 62@63 selling—small lots in store, 66@68. The feeling is not as encouraging as it has been recently as the impression is gaining strength that the coming crop will turn out much better than has been expected. Corn is in fair demand and limited supply but unchanged; 67 for mixed car in bulk; 69@70 for mixed shelled, and 72@ for prime yellow. Rye is very scarce and in fair demand, at $1.00@1.05.

GROCERIES—The only new feature we have to notice is a firmer feeling in Coffee, and there is no advance recent advices from New York, report that importers refuse to sell only at full prices. Sugars moderately active but unchanged. Molasses and Syrups dull. Rice easier and unchanged.

COFFEE—Fancy Rio, 18¾; Prime, 17½; Good, 16¾; Fair, 16; Roasting, 15½@16.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; other grades, 45@55.

Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 20; fair, $1; Oolong fancy, $1 25; good, 90cts; fair, 60@70c Souchong fancy, $1 20; good, 90c; fair, 70@80c. Japan Fancy, $1; good, 80c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9¾c; good, 9c.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 30, 1871.

As might be expected, there was considerable excitement in oil circles, this being settlement day, and making settlements was the chief order of the day; the great majority of the operators seemed to be busily engaged, in making tenders and deliveries, and at 4 P. M a number of settlements had been made but there was still quite a numoer remaining unsettled. We understand that one party has called for some $5,000 bbls. of "calls" which he purchased several months ago, but the parties who sold these "calls" refuse to pay any attention to the matter on the ground that this same party went back on his contracts, in December last; or that, in other words, he repudiated when the market was against him, but now he calls on others to do what he refused to do himself because the scale has turned the other way, in his favor. Whether his suing in bad faith there will be sufficient to release those upon whom he has "called" now from fulfilling their obligations is a matter yet to be demonstrated—the probability at this writing is that the courts will be called upon to pass upon the merits of the case. The intimations thrown out in our last report in regard to some of the heaviest "shorts" coming to the front to cover with present prices are likely to be realized; dispatches this afternoon reported that such was likely to be the case, and if so—the end is not yet.

CRUDE.

We can report 3,000 bbls spot at 13¾; 2 000 bbls seller all year at 12¾; 1,000 bbls spot, at Foster, at $5.000. Parker nominal at $4.90. Late in the afternoon it was rumored that an attempt would likely be made to run the price of spot oil up to 14, perhaps 14¾ cts.

REFINED.

Market quiet and unchanged: spot quoted at 25¾@25¾; July, 25¾; August, 26; September, 26¾. Not a single sale reported.

OIL BARRELS.

OIL CITY, June 30, 11:30 A. M.—Market quiet and firmer. Lower Creek held at $4.65 to 5; offering $4.90 to 4.95. Oil City held at $5.10; buyers offer $5.00 to 5.05. Weather Clear, 74.

PLEASANTVILLE, June 30, 12 M.—Market quiet; small sales at $4.90.

TITUSVILLE, June 30—9 P. M.—The market, though firm, was stagnant throughout the day, and but few transactions are reported. Upon the Lower Creek buyers were offering at $4.85@4.90, with sellers holding at $4.95 and over. Here the Upper Creek $4.55 was the ruling bid, though $4.60 was sparingly bid at the close without finding sellers. The opinion prevails that though no important appreciation in prices will mark the close of the first half year's business, there will at least be no decrease in figures; but to-morrow will tell the story. We quote the following sales: 1000 bbls at Upper Creek regular at $4.85; 500 do spot $4.62½; 500 do $4.60; 350 do $4.60; 100 Lower Creek spot $4.45; 1000 do $4.90; 500 do $4.85; 500 do 4.85.

PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, June 30, 1871.

The metal market, as is always the case at this season of the year, is very quiet, and no material improvement is expected during the next thirty days; as is customary some, perhaps, the majority of the mills will suspend operations for a few weeks at least, in order to take stock and make necessary repairs, and in consequence, there is very little inquiry for pig iron and what little inquiry there is, is for small lots to meet immediate wants or keep up mixtures. The offerings, however, are not large, not from any scarcity of stock, but because holders knew that it is not wanted, and that to force the market would result in lower prices.

The market for manufactured iron and nails is quiet and dull, and devoid of any new characteristics worthy of special notice.

Main Street School—Principal—Mr. J. K. Bane; Assistant—Miss Alice McMullen.

Gone.—Our very worthy young friend Mr. H. K. Jones, has just taken to himself a partner for life, being so very fortunate as to select Miss Lizzie, the accomplished daughter of our worthy fellow-citizen, John Gray, Esq., of the Fourteenth ward. We tender the worthy young couple our heartiest congratulations and best wishes for their prosperity and happiness through life.

Tenth Judicial District, Pennsylvania.—It has been decided that the Democratic conferees of the Tenth Judicial District of Pennsylvania, composed of Indiana, Westmoreland and Armstrong counties, will meet at St. Charles Hotel in this city, on the 11th inst., to nominate a candidate for President Judgeship, Vice Buffington resigned. Silas M. Clark, Esq., of Indiana, is the prominent candidate.

Large Dividend.—The young and prosperous Freehold Bank of this city, No. 28 Smithfield street, announces by notice of the Secretary, Thomas Steel, elsewhere printed, a dividend of twelve per cent. free of government tax on the earnings for the last six months. The bank now holds place among our soundest and most reliable financial institutions, and we are glad to record such healthy dividends for its stockholders.

American Bank.

It will be seen from an advertisement in another column, that the President and Directors of the American Bank have declared a semi-annual dividend of six per cent. on the capital stock, out of the profits of the last six months. The American Bank has only been in operation about two years, yet its deposits are equal to some of our oldest institutions. It is one of the large amount of deposits as well as the superior financial ability of its most worthy President, John Floyd Esq., and the cashier, William Floyd Esq., that the directors have been enable to declare a dividend of six per cent. every six months, since the Bank went into operation. There are no more reliable and trustworthy gentlemen in those cities than the Messrs. Floyd. Every one who deposits his funds in them, feels that they are are absolutely secure.

Explosion at an Oil Well.

An explosion of a serious character occurred at a new oil well which had just been struck, Thursday at noon, in the Armstrong tract near Brady's Bend. It seems the men were working about the well with a lighted lamp, when suddenly the oil commenced to spout out and in an instant there was a blaze. Five of the men were seriously burned, one of whom is dangerously so that it is feared he will not recover. The other victims were Frank Davis, Chris Miller, Rankin and Brown. The names of the latter, however, are not severe. The well is owned or Messrs. Haines and Wolf, and is said to be the largest ever struck in that vicinity since the "big gusher" in Armstrong tract. At last accounts it was flowing from eight hundred to one thousand barrels per day.

Commercial Banking Co.

The Stockholders of the Commercial Banking Company will no doubt be pleased to notice a dividend of five per cent. payable on demand, from their Banking House, on Fourth avenue. This bank is now doing a steadily increasing in popularity and now stands among the best monied institutions in the city. The directors, they could have declared a six per cent. dividend and then placed to their surplus fund quite a large amount but preferred to declare five and lay away a larger amount for a contingent fund. Mr. Macrum, the cashier, Mr. Everson, the teller and together with the entire Board of Directors deserve the thanks of the Stockholders and those doing business with this bank and the able and careful management of it since it started. May success attend them in the future as it has in the past.

OVER AN EMBANKMENT.

A Colored Boy Severely, Perhaps Fatally, Injured.

Last evening about seven o'clock a serious accident occurred in Allegheny to a colored lad named Rogers. It seems the boy, who is aged about twelve years, was driving a cart along Manhattan street, between Western avenue and Rebecca street, when a party of boys attacked him with stones. This occurred at a point on the street where there was an embankment some fifteen feet high on each side. In his efforts to avoid the flying missiles, hurled by at least a dozen assailants, young Rogers' attention was drawn away from the horse he was driving, and the animal went so close to one side of the street that the cart fell over the embankment, carrying with it both driver and horse, all rolling to the ground below. The boy was thrown out and the cart fell upon him, causing injuries of a very serious character—so serious indeed, that it is thought death will result. The sufferer was taken to his home on Fayette street, where he is receiving medical attention.

THE MONUMENTAL FLAG.

Presentation Monday Evening.

The following correspondence is self-explanatory. The occasion referred to will be very interesting, and will doubtless attract a large concourse of citizens:

MR. JAMES PARK, JR., *Chairman of the Allegheny Park Commission*—DEAR SIR: The flag of our Monumental Hill, Allegheny, will, some time since, is now ready and the installation of Duquesne Grays have kindly volunteered to present it on my behalf to your commission. If convenient and agreeable, therefore we shall be happy to meet you on the evening of the 3d of July for that purpose. I would respectfully suggest that the lawn in front of the music stand on the Park would be, perhaps, the most appropriate place for the ceremony. I am, Sir,

Your most obedient servant,
JOHN W. PITTOCK,

PITTSBURGH, June 30, 1871.

JOHN W. PITTOCK, Esq., *Pittsburgh*.—DEAR SIR:—I am in receipt of your note of this date, proposing to meet the "Park Commissioners" on the evening of Monday, the third of July, at which time you will be ready to present to them the large bunting flag for the staff on Monumental Hill.

I am glad to learn from your communication that Colonel David Campbell, with his battalion of Duquesne Greys, will be present, and on your behalf make the presentation.

In compliance with your suggestion, the lawn in front of the music-stand, near the lake in the West Park, will be selected as the place to receive the flag.

Respectfully yours,
JAMES PARK, JR.,
President Park Commission.

THE FATAL SHOT.

The Case of Louis Winklefouse—Conclusion of Testimony—Final Jury Out.

Yesterday morning the case of Louis Winklefouse, charged with killing Daniel O'Leary, was resumed in the Court of Oyer and Terminer, Judge Stowe presiding. The only evidence offered was that of one or two witnesses in rebuttal of certain testimony presented by the Commonwealth, and in an endeavor to establish the plea of self-defense.

The counsel commenced argument about ten o'clock, Mr. R. J. Powers prosecuting the case for the Commonwealth and being followed by John Coyle, Esq., for the defense, when Court took a recess.

Upon the reassembling of the Court in the afternoon the argument was continued by Mr. Marshall in behalf of the prisoner. The counsel spoke for over an hour and contended that the killing of O'Leary was done in self-defence—that the prisoner, Winklefouse, had no other method of escaping bodily harm.

Mr. Gibson closed the argument for the Commonwealth, speaking for an hour and a half, after which Judge Stowe delivered the charge to the jury, expounding the law in relation to the different grades of murder and the law in reference to the reception of evidence. The jury was instructed to carefully consider every circumstance connected with the killing. Every rational inference from the testimony was admissable, but the jury had no right to surmise outside of the evidence. They should consider whether there was any necessity for the shooting to preserve the prisoner from harm. The defense alleged that the prisoner had been assaulted by the deceased but there was no direct evidence upon that point. The evidence did seem to indicate that if a *stone was thrown* it was after the shot had been done *before* the shooting, and if so certainly the prisoner was in less danger than when the stone was in the hands of his alleged assailant. If then the danger was passed—so much so that the prisoner Winklefouse could have walked away without harm, then the law, however, unpleasant it might be to say it would not justify the shooting. Upon this even if O'Leary did strike Winklefouse,—would depend the validity of the plea of self-defense.

Of the grade of murder, the law was that if the shooting was premeditated, with an intention to kill, that was murder in the first degree: if it was not premeditated, then it became murder in the second degree. To make it a grade lower—manslaughter—the jury would have to believe that some provocation induced the act of shooting in this case—that O'Leary did strike the prisoner. If this striking was believed then the verdict could not be "manslaughter" whatever else it might be. His Honor concluded by directing the attention of the jury to the question of doubt which must be a reasonable honest doubt not in any way imaginary, and induced by sympathy, but a real, substantial, conscientious doubt arising from the evidence. In conclusion reference was made to the consideration of good character.

The jury then retired about five o'clock, Judge Stowe stating that court would remain in session for half an hour, and if not agreed then agreed upon a verdict, but had a prospect of deciding during the evening, he would convene court again at half past seven.

The Trial List for Saturday are all surety of peace and desertion cases.

All persons who have been convicted at this or former sessions (whether motions for new trials are pending or not) or who have entered the pleas of guilty or nolle contendre, must appear in Court at ten o'clock Saturday.

POLICE NOTES.

Brief Mention of Criminalities.

Thomas Mooney yesterday came before the Mayor and made a charge of assault and battery against Scott Watts, the latter gentleman alleges did boat, wound and ill-treat him at a pic-nic. Ward was arrested and held to bail for trial. Failing to procure the necessary bail, he was locked up.

Before Justice Barker, of South Pittsburgh, Michael Lally charged Patrick Munday with malicious mischief, alleging that the accused did destroy a wooden wall which the complainant had erected on his premises. The defendant claims that the lumber in the wall was his property. The case was amicably adjusted.

Before the same magistrate, Mrs. Mary Conroy, of Limerick, charged Thomas Coyne with assaulting and battering her child. The accused was arrested, but no settlement was effected, and he was released from custody.

Before Mayor Dilworth, yesterday, Samuel Palmer made an information charging R. S. Thompson, Simon Drum and Michael Simon with maliciously [illegible]. The defendants compose the firm of R. S. Thompson & Co., proprietors of a planing mill, at the corner of Robinson and Anderson streets, and the alleged nuisance consists of a number of piles of lumber on the streets. Warrants were issued.

Before Justice Ammon of East Birmingham, James Hiskey discharged Wm. Sproul and Spence with misdemeanors, under the 125th section of the Penal Code. The allegation is that the defendants did embezzle, as consignees, vouchers for two loads of coke, amounting to $8.80. The case was settled.

SOMETHING NEW.

The Homestead Bank and Life Insurance Company.

This new institution, we think, is destined to grow rapidly in public favor. It subserves important purposes not hitherto provided for in any of our beneficial organizations. Capitalists will be tempted by the certainty of accruing profits to become shareholders, and a large class of citizens will find in its plans and operations a way and an easy and sure way whereby to provide themselves with comfortable suburban homes, and thereby rise to the dignity and independence of freeholders. The plan comprises a Savings Bank, a Building Association and a Life Insurance Company. These three departments are made to work and co-work in such beautiful harmony, and with such beneficent effect, that we hazard nothing in predicting that thousands of sober, industrious and frugal families will avail themselves in the assured advantages which they offer, and become happy and contented freeholders. The management will be ready to apply for it with a printed prospectus which will at once exhibit and commend their plans as ingenious and yet wonderfully simple one who reads and reflects on them. See their advertisement in another column.

North Sub-District Public School.

At a meeting of the Fourth Ward School Board of Pittsburgh, last evening, the following corps of teachers was unanimously selected to serve for the ensuing year:

Principal: J. M. Logan.

Grammar: Misses Marianne Smith and Rachel B. Crooks.

Intermediate: Miss Mary C. Wanspeaker and Mrs. T. N. Miller.

Primary: Misses Ella Erwin, Emma J. West and Lizzie B. Rogers.

The re-election of Prof. J. M. Logan a fitting compliment was paid by the Board to a worthy recipient. He is an accomplished teacher and an educated and dignified gentleman. Since Prof. Logan has been called to the responsible position of principal of the above school they have largely grown in numbers and improved in scholarship. Numbers of applicants for admission into the North Sub-district Public Schools from other wards have presented themselves, when fact speaks in-high praise of the management. A generous and commendable rivalry exists amongst our public schools as to efficiency and general progress, but none of them can show a better report than those under the charge of Prof. Logan. The full corps of assistants were also re-elected, which attests their fitness and capacity.

The following resolution was unanimously adopted:

Resolved, That the thanks of the Board of Directors of the North Sub-district Public Schools are due and are hereby tendered to Prof. J. M. Logan and his assistant teachers for their faithful and efficient service during the past year.

HOLLIDAYSBURG, PA.

Closing Exercises at the Female Seminary.

HOLLIDAYSBURG, PA., June 28, 1871.

An immense number of people assembled to bear the closing exercises of the Hollidaysburg Female Seminary on Tuesday evening last. The room was crowded with ladies, and standing room for gentlemen was at a premium. One enterprising party extemporized a platform with a wheelbarrow outside of a window; after one or two upsets it was pronounced a failure.

Notwithstanding the heat and denseness of the crowd, the young ladies acquitted themselves so well that hardly a person left the hall until the benediction was pronounced. The members of the graduating class were Miss Alice M. Bennett, of Pittsburgh, Miss Mary Waterworth, of Salem, Ohio, Miss Anna M. Mack, of Carthage, Ill., Miss Lizzie D. Todd, of Indiana, Pa., Miss Mary E. Rose, of Hollidaysburg, and Miss Mary Boone, of Salem, O. Among the subjects of the essays were "Melting Light," "L'Empire et at Paix" and "The Alps are Hannibal's Monument."

The most artistic music, perhaps, was executed by Miss Reiber and Miss Frazer, although the "Adagio from Beethoven's Ninth Symphony" was well brought out by Miss Miller and Miss Mack. A song by Mendelssohn was sung very sweetly, but the voices were hardly "amore, Pimpier, &c., strong from impurity of the blood. Sold by enterprising Druggists everywhere. None genuine without the signature of G. W. Fradier over the cork of each bottle, and name blown in the glass. Depots, 61 Smithfield street and 116 Fifth avenue. Pittsburgh, Penna.
